Xara Photo & Graphic Designer 7 Typography Without Limits

- The world's most sophisticated, highest performance vector rendering engine
- Innovative intelligent image scaling technology that allows 'content-aware scaling'
- A complete HTML-based website creation feature
- Unique non-destructive editing of photos

Quite simply the world's fastest graphics software, with truly flexible illustration tools and revolutionary photo handling, Xara Photo & Graphic Designer 7 offers a single application for every type of creative or artistic document creation. Instead of requiring three or more separate programs to edit photos, or create web graphics, illustrations, or page layouts, Xara Photo & Graphic Designer 7 is one super-fast, easy-to-use program that enables more complex and realistic graphics to be created more easily and in less time.

Xara Photo & Graphic Designer 7 is a powerful, flexible bitmap and vector graphics program, making it perfect for any design that combines drawing, photos and text, from simple button or logo designs to incredibly detailed illustrations, posters, multi-page brochures, photo compositions and web graphics. It can produce animations too, including animated GIF, AVI and Flash.

Xara Photo & Graphic Designer 7 is ideal for any graphics enthusiast, small company or academic user that requires a single general purpose photo and graphics design tool. Xara Designer's Direct Action Tools allow you to create effects such as transparency, shadows, bevels or gradient fills in an interactive, fast and intuitive way. No distracting dialogs - simply drag on the object! With completely non-destructive photo editing, Xara Photo & Graphic Designer 7 uses a fraction of the RAM required by other products. It can handle multiple very high resolution images with ease, even on a modest PC.

New features in Xara Photo & Graphic Designer 7 include new fly-out galleries with advanced docking options, a new magnetic snap feature that makes positioning and alignment of items on the page much easier, cut/copy/paste of whole pages including their attributes and layers within and between documents, and an amazing photo erase feature that seamlessly erases objects from photos and replaces the space with an appropriate background sampled from other parts of the photo.

Alien Skin® Eye Candy 6 Complete Bundle 30 Professional Photoshop Plug-Ins

Eye Candy 6 is a set of 30 Photoshop filters that elegantly handle a wide range of design tasks, from slick Web interfaces to tasteful logos to spectacular titles. Realistic simulation of natural phenomena gives beautifully detailed results.

All of the filters now have the option to draw their output on a new layer. In Eye Candy 5 this feature was only available on some filters and it didn't work the same for all filters. Now all filters consistently apply their effect to a copy above the original layer. The new layer is named after the setting used. All of the filters work as Smart Filters when applied to Smart Objects in Photoshop. These features contribute to a non-destructive workflow.

 Visualize, Explore, and Communicate Complex Information and Processes

- Bring diagrams to life with dynamic, data-driven visuals
- A diverse set of intuitive, professional diagramming tools
- Share interactive, refreshable, data-linked diagrams with others via their Web browsers
- Communicate using diagrams you can share with a broad audience

The advanced diagramming tools of Visio 2010 help you simplify complexity with dynamic, data-driven visuals and new ways to share on the Web in real time. Whether you're creating an organizational chart, a network diagram, or a business process, the new tools and more intuitive interface in Visio 2010 make it easier to bring your diagrams to life.

Start by building your diagram with professional-looking templates and modern, pre-drawn shapes. Then, easily link your diagram to popular data sources (such as Excel). You'll see data automatically refresh right within your diagram, reflected in vibrant visuals such as icons, symbols, colors, and bar graphs. Finally, with just a few clicks, publish your data-linked diagram to SharePoint, and provide access to others on the Web, even if they don't have Visio.

Together, simplicity, data-driven shapes, and Web sharing make Visio 2010 one of the most powerful ways to see and understand important information.

Thomson Reuters Reference Manager 12

- Cite While You Write within Microsoft Word
- Attach PDFs and other files to a reference
- Spell check an entire database as well as individual records

No matter where you or your colleagues are in the world, so are your references. With Reference Manager you can collaborate with others on a network—or even the Web. Simplify your publishing with Reference Manager where you can search Internet databases, organize your references and create instant bibliographies.

Cite While You Write with a Reference Manager tab on the Word 2007 ribbon and watch the bibliography appear as you write. Now you can specify the sort order for in-text citations and the bibliography and differentiate between ambiguous citations, such as multiple works by the same author. Reference groups have new options to list as a single citation and suppress an author name with multiple citations.

ZBrush 4R2 – A New Kind of Clay

The World's #1 Sculpting Application Just Got Better! Step inside ZBrush 4R2 and see why the difference is here. **Dynamesh** is the next step in Digital Sculpting. With the ability to re-order surface topology on the fly, **Dynamesh** gives you 100% sculptable surface geometry where you want it, when you need it. **Dynamesh** is beyond a doubt: **"YOUR NEW BASE MESH."**

"ZBrush is my main tool here at Framestore's Art Department which I use every single day. It's important to have features like DynaMesh to be able to start with something from scratch and not have to use any other software to finish my concepts." – Christopher Brandstrom, Framestore

Already a mainstay in the film and game industries, **ZBrush is the go-to choice for generating production ready 3D digital assets.** ZBrush is also used for illustration, figure creation and concept design in 3D printing, toy manufacturing, dentistry, jewelry design, and science and medicine.

Created by artists for artists, ZBrush 4 enables you to:

- **Create highly-detailed 3D models** using the most advanced set of "clay-feel" sculpting brushes for both organic and hard-edge 3D assets.
- **Paint and texture** your 3D digital models efficiently with Polypaint and SpotLight.
- **Create efficient UVs** for your models in a single click with UVMaster.
- **Give life** to your models! Pose your 3D asset with ZBrush's advanced Transpose Master and ZSphere rigging solutions.
- **Optimize** and greatly reduce the poly count of your 3D model game assets while preserving high-resolution details with DecimationMaster.
- **Render your 3D art directly** in ZBrush! Advanced Best Preview Render (BPR) including Shadows, Ambient Occlusion, Fibers, SSS and Transparency with advanced anti-aliasing.
- **Create advanced turntable animations**, animate between morph targets and model poses, even import a soundtrack! ZBrush's Timeline offers elegant solutions to show off your work and nail your next job!

One of the core functions of ZBrush has always been to provide artists with the ability to create in an environment that allows for complete freedom of expression. The lack of technical barriers makes working within ZBrush feel like real-world sculpting and painting. This is a significant reason why so many artists have chosen to use ZBrush to create their ground-breaking artwork.

ZBrush's extensive and powerful features unleash students' ability to create jaw dropping portfolio and demo reel pieces – grabbing the attention of employers and giving students competitive advantage in the job market.

Learning ZBrush equips and empowers students with the production skills necessary for industry careers and other creative opportunities. ZBrush students are landing jobs at all major studios and companies. ZBrush in the curriculum ZBrush is an accessible, fun and exciting to learn and an essential, comprehensive and dynamic tool to teach. ZBrush is the industry standard. Schools teaching ZBrush are creating dynamic, applicable and appealing courses, attracting more students, serious about pursuing professional careers.

ZBrush offers the world's most advanced tools for today's digital artists. With an arsenal of features that have been developed with usability in mind, ZBrush creates a user experience that feels incredibly natural while simultaneously inspiring the artist within. With the ability to sculpt up to a billion polygons, ZBrush allows you to create to the limits of your imagination.

LeapFrog LeapPad Explorer™ Learning Tablet

The Personalized Learning Tablet Just for Kids

- 100+ games, digital books, videos and flash cards
- Works with all Leapster Explorer software
- Includes a built-in camera & video recorder
- 5" touch screen and 2GB of memory
- Pet Writing, Art Studio and Story Studio apps included

From LeapFrog, the award-winning educational toy company, comes LeapPad, a durable learning tablet featuring innovative apps that inspire creativity and turn reading into fun and games. The robust suite of apps includes book apps that provide a fully interactive, cinematic reading experience with word-by-word support and state-of-the-art gameplay; a Story Studio to combine art, audio and writing; and Art, Animation and Photo studios to inspire imaginations. It's a new way to learn, a new way to play – a new way to unlock your child's potential!

Touch it. Turn it. Shake it. Love it! LeapPad works with all Leapster Explorer™ and LeapFrog Explorer™ cartridge games and downloadable apps—more than 100 learning adventures await!* Touch the screen with a finger, tap it with the stylus or turn, twist and shake the tablet for exciting motion-based play!

From school basics to passion topics. Reinforce school skills like reading and mathematics, and build skills like art, music, language, health and hygiene. Skill levels adjust automatically for each child – keeping the challenge just right and remembering progress so the learning and fun keep moving forward.

Experience a brand new way to read. Characters spring to life with amazing animation, reading levels adjust the challenge to keep kids engaged, while touching the text sounds out words to help build phonics, comprehension and vocabulary skills. Voice recording, motion-based play and other innovative features turn reading into a cinematic experience!

Imagine, create and share. Animation and Art studios let children create masterpieces. The Photo Studio lets them edit pictures they've taken with the built-in camera. Bring it all together in the Story Studio for an interactive book "All About Me" to share with family and friends!

Share achievements. Our groundbreaking Learning Path lets you see specific play and learning details, including areas where your child excels or needs more support. Email updates provide tailored learning tips, and you can share your child's progress and achievements!

Make LeapPad your very own. Add your child's name and picture! Choose a pet to customize and nurture! Help change the game – literally – with customized mathematics skills and spelling lists that drop right into the action as your child plays!
